Gulachi COMPANY SERVICES

With a wide range of services for all the industrial sectors and providing our services in 12+ countries in the field of Inspection, Maintenance & operations we have segregated our services into four categories.

1

ONE STOP SOLUTIONS

A lumpsum solution for all your operational needs. From Online performance monitoring to planning and executing the full shutdown will be done under one roof. Our team have expertise in performing Decommissioning, Opening, Cleaning, Inspection, repair, Coating and recommissioning including support services like Scaffolding, Rope access and surface, preparations.

2

INSPECTION & TESTING SERVICES

We are providing Inspection & testing Services since last 21 years and with an vast experience, we have developed all inspection techniques which are required for the industries. We are equipped with all Destructive , Non-Destructive, and Advances Inspection techniques. Our latest Robotics and Drone Inspection techniques would be the coming star in the field of Inspection & Testing

3

PERFORMANCE ENHANCEMENT

Equipment Performance low due to inefficient cleaning? Our Industrial Cleaning Technology is the best technique in the Market:

1. Mechanical Tube Cleaning
2. Hydro Blast Cleaning
3. Non-Man Entry Storage Tank cleaning

4

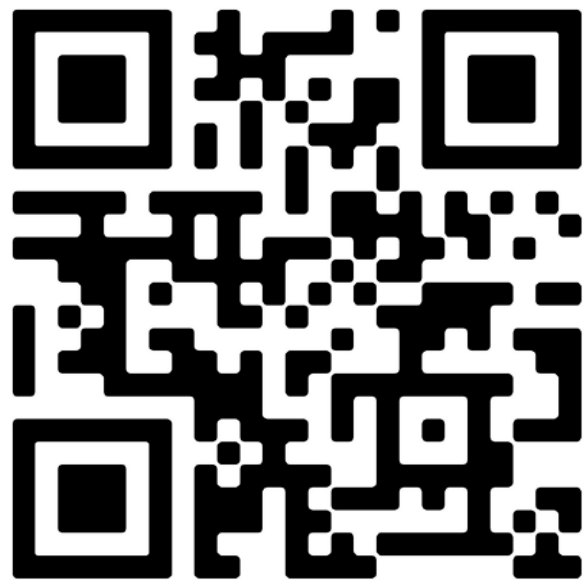

PROTECTIVE & ANTI CORROSIVE COATING

The latest dustless blasting is the trending technique for surface preparation. No need of isolation, prepare the surface as per the standards with no more effort and in quick time with our latest dustless blasting Technique. We provide a total solution for Anti-corrosive coating. Waterproof, Low Temperature, High Temperature, CUI and life enhancement coating system are our one of the best product.

WHAT'S LATEST?

Gulachi

TOP 3 ACHIVEMENTS IN 2022-23

1. **PRODUCT:** DOUBLE WALL ATMOSPHERIC AMMONIA STORAGE TANK
2. **CAPACITY/ QUANTITY :** 10,000 MT
3. **DESCRIPTION:** HEALTH AND RELIABILITY ASSESSMENT
4. **SCOPE: TOTAL SHUTDOWN –** HAZID-HAZOP, DE-COMMISSIONING- PURGING- MANHOLE CUTTING, TANK CLEANING, SURFACE PREPARATION, SCAFFOLDING, INSPECTION, ASSESSMENT, RECTIFICATION, HOUSE KEEPING, MAN HOLE RE-WELDING, RE-COMMISSIONING
5. **CLIENT:** IFFCO, INDIA

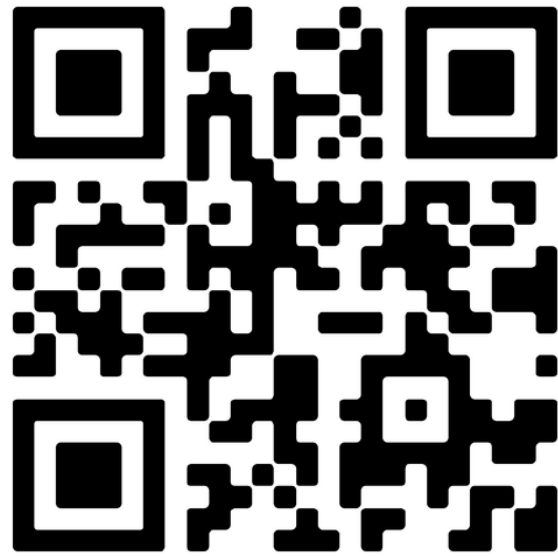

1. **PRODUCT:** CRUDE OIL TERMINAL PIPELINES
2. **CAPACITY/ QUANTITY :** APPROX. LENGTH 43 KM'S (2" TO 36" SIZES)
3. **DESCRIPTION:** CORROSION MAPPING & FFS
4. **SCOPE:** 100% CORROSION MAPPING OF ALL COT PIPELINES INCLUDING WELDS, SMALL BORE CONNECTIONS, T JOINTS AND ELBOWS. MULTIPLE TECHNIQUES LIKE LRUT, PAUT, ROBOTIC SCANNING, PEC, CRAWLERS, GNDT TECHNIQUES WERE UTILISED DURING THE PROJECT
5. **CLIENT:** HMEL-HINDUSTAN MITTAL ENERGY LIMITED - HINDUSTAN MITTALS PIPELINES LTD., INDIA

1. **PRODUCT:** PENSTOCK OF HYDRO POWER PLANT
2. **CAPACITY/ QUANTITY :** 25 MW HYDRAL PLANT, PENSTOCK LENGTH 600 METERS, DIA: 2.5 METERS, APPROX AREA 4300 SQM.
3. **DESCRIPTION:** ANTI CORROSIVE COATING FROM INSIDE
4. **SCOPE:** 100% ANTI CORROSION COTING WAS APPLIED IN THE PENSTOCK WHICH WAS UNDERGROUND AND IN AN INCLIEND POSITION. AT ONE LOCATION IS IS INCLIEND AT 40 DEGREE . SURFACE PREPARATION WAS PERFROMED BY HYDRO BLASTING AT A ACHIVING STANDARD AS PER SA2 FOLLOWED BY AIRLESS SPRAY PAINTING.
5. **CLIENT:** NORTH EASTERN ELECTRIC POWER CORPORATION LIMITED, INDIA
